

Challenge of Change Finding Opportunity in Adversity

We've all heard it a million times; "change is constant", "the only certainty in life is change", "change or perish". We all *know* it; what we need is for someone to *show* us how to deal with it. Warren's "Challenge of Change" presentation will help your group realise that challenges brought on by change hold endless opportunities for innovation and personal and professional growth. That it is possible to not just survive, but to thrive despite adversity.

This presentation is designed to provide you with four outcomes:

- **The ability to recognize and breakthrough mental barriers to change**
- **Tools to turn change and challenge into catalysts for both business and personal growth**
- **A powerful shift in thinking that will put challenges into perspective**
- **A mindset that seeks solutions and opportunities**
